FOR IMMEDIATE RELEASE

Sunshine Prosthetics and Orthotics Patient Facility Gets Visit from Mayor of Wayne New Jersey at Grand Opening

Summary: New practice opens in Wayne, NJ, to provide customized care and services for patients with prosthetic and orthotic needs.

May 16, 2013 – On Thursday, May 16th, Sunshine Prosthetics and Orthotics in Wayne, NJ, had an open house and ribbon cutting ceremony. Mayor Chris Vergano of Wayne, NJ, paid an enthusiastic visit to the kick-off event.

“I am very happy to support new businesses in our area that provide much needed services to our local community, like the ones Brooke provides to her patients,” said Vergano.

The brand new facility includes a state-of-the-art manufacturing area, with the latest technology and medical techniques available to meet the unique needs and potentials of amputees and those adults and children needing orthotics to maximize function and activity. Brooke Artesi, CPO, LPO, is the only prosthetist in the tri-state area certified to provide custom mastectomy prostheses by Radiant Impressions.

Brooke has a deep understanding of her patients’ needs, as she has been an amputee since the age of 15. Licensed and certified in prosthetics and orthotics, Brooke has a specialty in pediatric orthotics. She has been in practice for over 10 years as a prosthetist and orthotist.

Committed to living an active lifestyle and serving as a role model for her patients, Brooke competes annually in the Extremity Games, an adaptive sports competition, and has won awards in both rock climbing and kayaking.

“Each of our patients has a unique need. We make sure to address and meet these needs with the correct design and custom fit,” says Artesi. “We provide services to our patients in a comfortable and spacious setting, including a comfortable waiting area. Providing the best care possible for our patients is our main focus, and my goal is to keep people active.”

The new patient facility is centrally located in Wayne, NJ at 1700 Route 23 North, Suite 180. The office is equipped to provide measurements and fittings of high quality and technology prosthetics and orthotics. For more information, call (973) 696-8100 or visit their website for more information at www.sunshinepando.com.
