Andrea Lewis, 10, of River Vale, is fitted for a prosthetic leg by Brooke Artesi of the Challenged Athletes Foundation. 'I feel like I'm standing in someone else's legs,' Lewis said as she walked around in them.

Demarest held its 30th annual 5K race on May 20, with more than 400 participants coming out to run through the town. In addition to the race, fitness assessments and post-race massages were done, and Brooke Artesi of the Challenged Athletes Foundation, who lost her leg in a train accident and used sports to help her recovery, spoke to the youth gathered at the 5K and had some children fitted with prosthetic limbs so they could see what life was like for those missing their legs.
